MESSAGE FROM THE MANAGEMENT

2018 was an year of consolidation for Tenda's current business model, which was implemented in 2013 and has been able to provide, with quality and agility, affordable housing units for low-income families, while at the same time has guaranteed consistent returns to investors.

With the launch of 13,636 units in the year, up 15.9% year-on-year, Tenda reached R\$1.91 billion in PSV launched and continued the strategy to grow rationally, expanding to the eighth metropolitan area of operation, Goiânia, where it launched the Parque Cerrado I project in December 2018. In 2017, Tenda made its first expansion under the current business model, launching a project in Curitiba. In 2018, the Company entered Goiânia. The Company's business model has allowed the expansion of the operation to a new region per year, a strategy that has proved to be effective in increasing Tenda's presence in new metropolitan regions.

Tenda's landbank totaled R\$8.89 billion in PSV at the end of 2018, an increase of 32.8% compared to the previous year. In 2018, the Company acquired R\$4.11 billion in PSV, 2.15 times above the PSV launched during the year. As a result, the Company reiterates its commitment to maintain a landbank equivalent to three years of launch in each of its operating regions, guaranteeing operational stability.

In April 2018, the delivery of the first project with elevator in São Paulo was also a milestone, allowing the construction of popular units with better use of the land, an equally attractive price and similar costs, increasing the Company's potential to absorb demand in Brazil's largest metropolitan region.

Efficiency in production costs and in sales transfers, two of Tenda's business model pillars, led to good operating margins and cash generation. Adjusted gross margin for the year was 36.3%, 0.3 p.p. above the expectations of the Company, as disclosed in guidance. Cash generation totaled R\$261.4 million in 2018, which further deleveraged the Company throughout the year, resulting in a net debt to shareholders' equity ratio of -26.0%.

Tenda has the long-term objective of reaching a leverage ratio between -10% and 10%, leading to a still conservative but more balanced capital structure. To support this process, the Company started initiatives to distribute capital to shareholders: two share buyback programs were announced in 2018, with a total of R\$184.2 million in funds available, of which R\$148.7 million were repurchased during the year; the buyback programs were complemented by the cancellation of 2 million shares, with a positive impact on the stock price; in addition, the Company also paid R\$25.0 million in interim dividends at the end of the year.

Consistent operating results over time allowed Tenda to reach R\$200.3 million in net income in 2018, which resulted in return on equity (ROE) of 17.0% in the year. As a result, the Company's shares (B3: TEND3) appreciated 61% in 2018, well above the 15% appreciation of Brazil's main stock exchange index, the IBOVESPA. As the daily trading volume increased throughout the year, the Company entered the IBRX100 index, composed of the 100 most traded shares in B3, in the beginning of 2019.

In 2019, changes in the format of the Minha Casa, Minha Vida should reduce Tenda's participation in the program's bracket 1.5, a solution created by the Federal Government in 2016 to give access to subsidized acquisition for families with monthly income lower than R\$2,600. On the one hand, some of the Company's operating indicators (such as SoS and selling expenses) performed exceptionally well in 2018, mainly due to Tenda's greater participation in MCMV's bracket 1.5. On the other hand, the changes announced aim to reduce the pressure for FGTS resources, contributing positively to the long-term sustainability of the program. The Company's expectations for adjusted gross margin and net sales in 2019, released in February (see page 4), already take into account the changes in the format of the MCMV.

In a year that must provide a challenging business environment for the entire low-income market, Tenda maintains the ambition to be the company in the country's economic entrepreneurship market that delivers the best return to its shareholders.

2. Adjusted by capitalized interests, expenses with stock option plans (non-cash) and minority shareholders.

3. Adjusted by minority shareholders.

4. Backlog results comprise the projects restricted by condition precedent.

5. Cash and cash equivalents and securities.

6. Cash Generation is obtained through the difference between the variation of Available Cash and the variation of Gross Debt, adjusted to the amounts of Share Buyback, Dividends Capital Reduction and non-operating effects

7. Operating Cash Generation is a result of the company's managerial calculation which neither reflects nor is compared with the figures reported in the financial statements.

8. NOPAT is composed of net income excluding financial result and capitalized interest effects.

9. Capital Employed is composed of the sum of net debt, shareholders' equity and minority shareholders.

10. ROE is calculated by net income of the last 12 months adjusted by minority shareholders divided by the average shareholders' equity. Average referring to the opening and closing position in the last 12 months.

11. ROCE is calculated by NOPAT of the last 12 months divided by average capital employed. Average referring to the opening and closing position in the last 12 months.

GUIDANCE

Aiming at generating useful comparative information and providing predictability to the market on our figures, Tenda opted to disclose guidance based on scenarios identified with defined variables and assumptions. We reached the following results in 2018:

- For **Adjusted Gross Margin**, which is the ratio of consolidated gross profit for the year less financial charges, as stated in Note 12 to the financial statements and consolidated net revenue for the year, the Company reached 36.3% at the end of 2018, 0.3 p.p. above the upper limit of the guidance (between 34% and 36%). The slight deviation can be attributed to the performance in 4Q18, in which the Company posted gross profit increase despite lower net revenue when compared to the previous quarter.
- For **Net Pre-Sales**, defined as the product of gross sales for the year (in R\$ million) less cancellations for the year (in R\$ million), adjusting all amounts to Tenda's equity interest, the Company estimated a fluctuation between the minimum of R\$ 1,650.0 million and the maximum of R\$1,850.0 million. The ratio came slightly above the upper limit of guidance, totaling R\$1,854.8 million. The 0.3% deviation in relation to the upper limit of guidance is mainly due to the drop in the cancellations/gross sales ratio, which in 4Q18 reached the lowest level of the Company's historical series (8.9%).

Net Pre-Sales Range (R\$ million)	1,650.0	1,850.0	424.2	481.3	489.9	459.5	1,854.8

As a result of the assertiveness regarding 2018 figures, the Company again opted to disclose guidance for 2019. As described in a material fact disclosed to the market on February 11, the Company estimates the following projections for the full year of 2019:

- For **Adjusted Gross Margin**, a range between 34,0% and 36,0%;
- For **Net Pre-Sales**, a range between R\$1.95 billion and R\$2.15 billion.

LAUNCHES

In 4Q18, the volume of launches totaled R\$530.6 million in PSV. Thus, Tenda reached 49 projects launched in 2018, or R\$1.91 billion in PSV. 12 projects were launched in 4Q18, being Parque Cerrado I the first launched in the metropolitan region of Goiânia since the adoption of Tenda's current business model, in 2013. With this expansion to Goiânia, Tenda now reaches eight Brazilian metropolitan areas.

Projects containing units within the bracket 1.5 of the MCMV were launched at the end of 2018 and are in compliance with the program's new regulations for 2019.

GROSS SALES

Gross sales totaled in PSV, R\$504.3 million in 4Q18 and R\$2.05 billion in 2018, an increase of 13.3% in the annual comparison.

Sales over Supply ("Gross SoS") reached 31.4% in 4Q18, up 1.8 p.p. year-on-year, but down 3.6 p.p. quarter-on-quarter.

CANCELLATIONS AND NET PRE-SALES

Cancellations over gross sales ratio ended 4Q18 at 8.9% (and 9.4% in 2018). In 2018, cancellations over gross sales ratio varied between 8.9% and 10.0%, below 2017 (14.5%).

Net pre-sales totaled in PSV, R\$459.5 million in 4Q18 and R\$1.85 billion in 2018, up 20.1% year-on-year. Sales over Supply ("Net SoS") reached 28.6% in 4Q18, up 1.7 p.p. year-on-year and down 2.9 p.p. quarter-on-quarter. To avoid the sales of units that might not be suitable for the new MCMV regulations, the Company concentrated its launches in the last week of 2018, negatively impacting both net sales and Net SoS.

UNITS TRANSFERRED, DELIVERED, AND CONSTRUCTION SITES

PSV transferred totaled R\$346.8 million in 4Q18 and R\$1.65 billion in 2018, up 16.5% year-on-year. The 21.1% quarter-on-quarter drop is mainly due to the need of relocating funds from the FGTS (Government Severance Indemnity Fund for Employees) budget among cities and shortage of subsidies to the bracket 1.5 of MCMV Program at the year's end. These two factors have already been addressed for 2019.

We ended 4Q18 with 2,488 units delivered, totaling 10,244 units delivered in 2018, up 5.5% year-on-year. We ended the quarter with 44 construction sites.

INVENTORY AT MARKET VALUE

Tenda ended 2018 with R\$1.14 billion in inventory at market value, 3.0% lower than in 2017, but 7.6% higher than the previous quarter due to the timing of 4Q18 launches and the increase in units developed to meet the MCMV bracket 2 in the Company's inventory mix.

Finished inventory units ended 2018 with a 31% decrease over 2017, totaling R\$72.2 million (6.3% of the total inventory). Inventory turnover is 7.4 months, above 2Q18 and 3Q18 levels (when it ranged between 6.7 and 7.0 months), but below 2017 figures (when it ranged 9.2 and 10.4 months).

LANDBANK

Tenda ended 2018 with a total landbank of R\$8.89 billion in PSV, 32.8% higher than in 2017. Acquisitions and adjustments, which account for the difference between PSV acquired and PSV launched, totaled R\$4.11 billion.

In 4Q18, 36 phases/projects were acquired, distributed in the regions where the Company operates, representing potential launch of R\$1.58 billion in PSV. We reiterate that all the projects of our landbank are feasible within the MCMV bracket 2, and, in some cases, may be adapted to the MCMV bracket 1.5.

LEGACY UPDATE

Over the past several years, the impact of legacy projects on both our results and on capital employed¹ has decreased. The speed of this phase-out will slowly decline until liquidation, due to the low liquidity of inventory and portfolio.

GROSS PROFIT

The adjusted gross profit (adjusted for capitalized interest) totaled R\$610.5 million in 2018, up 22.4% over 2017, resulting in an adjusted gross margin of 36.3%, slightly higher than the guidance for the year (between 34.0% and 36.0%). In 4Q18, adjusted gross margin increased 2.5 p.p. QoQ. It should be noted that the gross profit for 3Q18 has a R\$18.0 million negative impact due to cost recognition incurred in a phase of the undelivered legacy project *Mirante do Lago*.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES (SG&A)

In 2018, selling expenses accounted for 7.1% of gross sales, a decrease of 0.5 p.p. compared to the previous year, demonstrating efficiency in the Company's commercial process. In 4Q18, however, the indicator was higher than in the previous quarter (7.7%), mainly due to the sharp fall in gross sales, a consequence of the concentration of launches at the end of the quarter. Selling expenses totaled R\$145.3 million in the year, of which R\$38.6 million in 4Q18.

General and administrative expenses ("G&A") accounted for 7.4% of the year's net operating revenue, up 0.4 p.p. year-on-year. In 4Q18, G&A totaled R\$35.0 million, an increase of 23.5% over the previous quarter, explained mainly by (i) an increase in the stock option plan, due to the extraordinary grace period in the case of the plan approved in 2018 (a 5-month grace period versus a standard 24-month grace period) and (ii) an increase in the provision for profit sharing, as a result of a review in the Company's turnover, which was lower than the original forecast for the year.

OTHER OPERATIONAL REVENUES (EXPENSES)

Other operating income and expenses totaled R\$81.5 million in expenses in 2018, down 17.2% on the previous year, confirming the prospect of a progressive reduction of legal contingencies related to the legacy projects. In 4Q18, however, the increase in litigation expenses is mainly explained by provisions related to two cases, which together generated an impact of approximately R\$12 million. Both are tax claims that have taxable events referring to years prior to the current business model.

FINANCIAL RESULTS

In 2018, Tenda posted a positive financial result, totaling R\$8.5 million, due to improved cash position versus its indebtedness, as well as better conditions for the Company to access debt capital markets, as a lower risk perception by creditors resulted in lower interest rates.

NET DEBT

Tenda has an adjusted net debt to shareholders' equity ratio of -26.0%, being one of the most deleveraged companies in the sector. To support its long-term goal of maintaining leverage closer to 0%, resulting in a still conservative, but more balanced capital structure, several initiatives to distribute capital to shareholders were promoted. The Company opened two share buyback programs in 2018, with a total of R\$ 184.2 million in funds available, and paid R\$ 25.0 million in interim dividends at the end of the year.

Cash generation totaled R\$ 68.9 million in 4Q18, down 5.0% QoQ.
